**Value of \$10,000 investment – Series A**

**What does the Fund invest in?**

The Fund invests primarily in high quality dividend paying common and preferred securities of Canadian and U.S. issuers, and may also invest in income trust units and fixed income securities of Canadian and U.S. issuers.

It currently achieves this by investing in IA Clarington Strategic Equity Income Fund.

**Key Reasons to Invest**

- Provides access to dividend-paying companies that are considered to be undervalued by the manager and exhibit growth potential
- Endeavours to strategically position the Fund through all market conditions
- Rigorous & active investment process that focuses on safety of income and incorporates the manager's macro outlook

**Portfolio Manager**

**iA Global Asset Management Inc.**

Dan Bastasic, CFA, MBA

<sup>1</sup> IA Clarington Strategic Equity Income Class invests substantially all of its assets in units of IA Clarington Strategic Equity Income Fund (the "Reference Fund"). The information provided in this section refers to the Reference Fund, and where applicable as a percentage of its net asset value. <sup>2</sup> Excludes applicable sector allocations of exchange-traded funds. <sup>3</sup> Excludes Cash and Other Net Assets and applicable investment funds not managed by IA Clarington Investments Inc.

†Distributions (\$/share) and Distributions (\$/unit) are paid using a calculation rounded up to 5 decimal places. Please note the distributions presented above are rounded to the nearest 3 decimal places.

Commissions, trailing commissions, management fees, brokerage fees and expenses all may be associated with mutual fund investments, including investments in exchange-traded series of mutual funds. Please read the prospectus before investing. Indicated rates of return include changes in share or unit value and reinvestment of all dividends or distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Returns for time periods of more than one year are historical annual compounded total returns while returns for time periods of one year or less are cumulative figures and are not annualized. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. The compound growth chart is used only to illustrate the effects of a compound growth rate and is not intended to reflect future values or returns of the Fund. The performance data of different series may differ for a number of reasons, including but not limited to the different fee structures. Where a material merger has occurred, performance is measured from the date of the merger (Performance Start Date or PSD). The payment of distributions and distribution breakdown, if applicable, is not guaranteed and may fluctuate. The payment of distributions should not be confused with a Fund's performance, rate of return, or yield. If distributions paid by the Fund are greater than the performance of the Fund, then your original investment will shrink. Distributions paid as a result of capital gains realized by a Fund and income and dividends earned by a Fund are taxable in your hands in the year they are paid. Your adjusted cost base will be reduced by the amount of any returns of capital. If your adjusted cost base goes below zero, then you will have to pay capital gains tax on the amount below zero. A mutual fund's "yield" refers to income generated by securities held in the fund's portfolio and does not represent the return of or level of income paid out by the fund. The "Portfolio Yield" characteristic listed in the fund profile refers to the yield of the Fund as a whole, not that of each series of the Fund. Please refer to the prospectus for details and descriptions of the different series offered by the Fund. Securities denominated in U.S. dollars may not be held in Registered Plans, other than in a TFSA. The IA Clarington Funds are managed by IA Clarington Investments Inc.
