What Does The Fund Invest In?

The Fund's objective is to generate interest and dividend income with the potential for capital appreciation by investing primarily in a diversified portfolio of other mutual funds that meet the sub-advisor's SRI principles, with a bias towards Canadian income and bond mutual funds and the remainder in equity mutual funds.

Key Reasons to Invest

- Balanced exposure to a target asset mix of 65% fixed-income securities and 35% equities diversified across asset classes, geography and sectors.
- Holistic approach to responsible investing security selection through a fully integrated in-house investment management team. The environmental, social and governance (ESG) and financial analysis teams work together on a security-by-security basis for enhanced idea generation and risk management.
- Active asset allocation by an experienced team that leverages a multifaceted and disciplined institutional investment approach.

* Vancity Investment Management Ltd. (VCIM) was appointed the Fund's sub-advisor in December 2009. The listed portfolio managers under VCIM have an effective start date of April 2021. iA Global Asset Management Inc. (iAGAM) and the listed portfolio managers under iAGAM joined the Fund's portfolio management team in January 2022. iAGAM is a subsidiary of Industrial Alliance Investment Management Inc. (iAIM).

† Distributions (\$/share) and Distributions (\$/unit) are paid using a calculation rounded up to 5 decimal places. Please note the distributions presented above are rounded to the nearest 3 decimal places.

Commissions, trailing commissions, management fees, brokerage fees and expenses all may be associated with mutual fund investments, including investments in exchange-traded series of mutual funds. Please read the prospectus before investing. Indicated rates of return include changes in share or unit value and reinvestment of all dividends or distributions and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any securityholder that would have reduced returns. Returns for time periods of more than one year are historical annual compounded total returns while returns for time periods of one year or less are cumulative figures and are not annualized. Mutual funds are not guaranteed, their values change frequently and past performance may not be repeated. The compound growth chart is used only to illustrate the effects of a compound growth rate and is not intended to reflect future values or returns of the Fund. The performance data of different series may differ for a number of reasons, including but not limited to the different fee structures. Where a material merger has occurred, performance is measured from the date of the merger (Performance Start Date or PSD). The payment of distributions and distribution breakdown, if applicable, is not guaranteed and may fluctuate. The payment of distributions should not be confused with a Fund's performance, rate of return, or yield. If distributions paid by the Fund are greater than the performance of the Fund, then your original investment will shrink. Distributions paid as a result of capital gains realized by a Fund and income and dividends earned by a Fund are taxable in your hands in the year they are paid. Your adjusted cost base will be reduced by the amount of any returns of capital. If your adjusted cost base goes below zero, then you will have to pay capital gains tax on the amount below zero. A mutual fund's "yield" refers to income generated by securities held in the fund's portfolio and does not represent the return of or level of income paid out by the fund. The "Portfolio Yield" characteristic listed in the fund profile refers to the yield of the Fund as a whole, not that of each series of the Fund. Please refer to the prospectus for details and descriptions of the different series offered by the Fund. Securities denominated in U.S. dollars may not be held in Registered Plans, other than in a TFSA.
